ABOUT ME

AI/ML Developer Intern with 2 months of experience across Infosys Ltd. startups prior to graduation, along with 3 projects and 5 certifications. I've built scalable, data-driven systems, driven by a passion for system design. Building is what I do best — whether it's taking something from 0 to 1 or scaling it from 1 to 100.

EDUCATION

R.M.K. Engineering College RMKEC, Kavaraipettai BTECHIT Information Technology, CGPA: 72.3%	2024 2028
Kongu Matriculation Higher Secondary School, Morappur Higher Secondary, CGPA: 89.67%	2022 2024

SKILLS

- **Languages:** Python, Java
- **Frameworks:** React.js, FastAPI, Express.js, Tailwind CSS, ShadCN UI
- **Tools & Platforms:** Vite, Asana, Netlify
- **Databases:** MongoDB
- **Cloud & DevOps:** JWT Authentication
- **Concepts:** REST APIs, AI/ML, Data Visualization

EXPERIENCE

AI/ML Developer Intern Infosys Ltd. — FastAPI, XGBoost, PyTorch, React.js, Recharts	Feb 2026 Apr 2026
---	-------------------

- Engineered Transfer-IQ, an AI-powered data transfer assistant using FastAPI, XGBoost, and PyTorch LSTM.
- Designed responsive React.js dashboards with Recharts for real-time data visualization enhancing user engagement.
- Deployed the application on Netlify, achieving seamless integration and public accessibility for live demonstrations.

PROJECTS

Profile Management System — React.js, HTML, CSS, JavaScript, MongoDB, FastAPI, Python, XG-Boost, PyTorch, REST APIs

- Developed a full-stack profile management application using React.js and MongoDB.
- Engineered a component-based architecture with optimized state management and responsive UI for mobile and desktop.
- Achieved seamless user experience across devices with improved rendering performance.

Transfer-IQ — React.js, Vite, FastAPI, XGBoost, PyTorch LSTM, Scikit-learn, SHAP, Pandas, NumPy, Recharts

- Created an AI-powered data transfer assistant platform utilizing FastAPI and integrating XGBoost and PyTorch models.
- Designed an intuitive React.js dashboard with Recharts for real-time data visualization and model explainability using SHAP.
- Deployed the application on Netlify, ensuring seamless frontend-backend integration for live demonstrations.

HealthPluse-AI — React.js, TypeScript, Vite, Tailwind CSS, ShadCN UI, Recharts, Node.js, Express.js, MongoDB, Gemini AI, JWT Authentication, OpenWeather API, WAQI API

- Built a comprehensive health assistant web app integrating Gemini AI and multiple APIs for real-time insights.
- Architected the UI using Tailwind CSS and ShadCN UI, focusing on responsive layouts and interactive components.
- Implemented secure JWT-based authentication and RESTful API integration with Node.js and Express.js, ensuring reliable data flow.

PUBLICATION

- Shortlisted for Round 2 in 50+ competitive technical assessments and hiring challenges.
- Achieved Top 10 and Top 20 rankings in various national-level hackathons and coding competitions.
- Consistently ranked within the Top 50 participants across multiple technical events and hackathons.

EXTRACURRICULAR

- Generative AI Professional
- AI Foundations Associate
- AWS Solution Architect Certification
- Java Developer Certification
- Software Testing Certification
